BAPTISTS OF TEXAS PRAISE EL PASO FOLKS

Copies of the El Paso number of the Baptist Standard, of Dallas, featuring the coming Baptist convention to be held here November 5-10 have been received in El Paso. The title page of the publication shows a large view of the scene known as the heart of El Paso, one of the best residential streets and a bird's eye view of the city, taken from the top of the Mills building. This is the first published picture of this view.
Dr. George W. Truett writes of "The El Paso Convention," and a two column editorial article on El Paso urging an increase attendance from all sections of the state. Dr. Truett says: "For the first time Texas Baptists are to hold their annual convention in the border city of El Paso. They should go in vast numbers to that strategic and commanding city of the west. Texas Baptists have a distinct surprise awaiting them in connection with their visit to El Paso. They will find there one of the most forward looking cities in the whole country. They will find there a strong contingent of devoted and noble useful Baptists."
The editor of the Standard says of the city: "The city of El Paso will surprise every one who has never visited that section. The United States census gives it a population of nearly 30,000 not including Fort Bliss. The views given on the front page convey some idea of the attractiveness of El Paso. The day is not far distant when, with the development of the resources of Mexico and of the west, El Paso may be the largest city in the southwest. It is most durably built city in Texas. The business interests of El Paso are alert and progressive."
